VISITOR GUIDE

Welcome to the most influential event  
for Saudi Arabia's water industry

# Welcome to Global Water Expo

On behalf of dmg events, it is my pleasure to welcome you to the third edition of Global Water Expo.

As Saudi Arabia accelerates investment in sustainable infrastructure and water resilience, announcing 30 new water and sewerage projects across Riyadh worth \$533 million (SAR 2 billion), the need for targeted, high-impact solutions has never been more critical (Source: National Water Company). Against this backdrop, Global Water Expo arrives at an important time, bringing together the full value chain of the water industry to support its infrastructure expansion and transformation ambitions. Driven by strong market demand in water and related industries, Global Water Expo has evolved into a more focused event, reflecting both the sector's rapid development in the Kingdom and the event's role in conveying the scale, expertise and solutions needed to match its ambitions.

Across three days, more than 300 companies from over 25 countries will showcase technologies and systems that address today's most pressing water challenges, from extraction and treatment to reuse, regulation and environmental protection. Alongside a strong international presence and dedicated country pavilions, the exhibition offers a space for real business connections, helping decision-makers, engineers and project leaders connect with the people and solutions advancing the Kingdom's development.

We extend our thanks to our exhibitors, partners, sponsors and attendees for being part of this growing community.

We look forward to an impactful and solution-driven edition.
